Silver Spring Foods Adds New Product- Whole Grain Mustard

Silver Spring Foods, Eau Claire, Wisconsin, the world's largest grower and processor of horseradish, has added stone-ground whole grain mustard to its growing line of specialty mustards.

Silver Spring Whole Grain Mustard, packaged in a 9.25 ounce squeezable bottle, includes a hint of horseradish to add a "pop" of flavor to many recipes. The "grainy" style mustard is perfect for gourmet sandwiches, wraps and burgers. It also serves as a great dip for pretzels. Silver Spring Whole Grain Mustard contains no fat or cholesterol and is certified kosher through Orthodox Union.

The new product is the twelfth specialty mustard at Silver Spring Foods, which also produces horseradish products and sauces. Silver Spring products are available at grocery stores, nationwide. The family-owned Silver Spring Foods is 82 years old.
